

Peace by Piece

Peace By Piece is a global community art project and traveling exhibition composed of individual canvases depicting expressions of peace. Created after 9/11, the aim of the project is to awaken a compassionate heart in all who participate in it and who view it. Through art and writing, the participant seeks his/her voice and a deeper awareness of the power of expression. This project promotes the importance of art and its integral place in our lives and the lives of all children.
